WELCOME

“Please join with me and the rest of our tremendous parent group and make the Haxton Invitational Regatta as special as its namesake.”

- Chris Swartz

On behalf of the Haxton family and UA Crew, I would like to welcome you to the 6th annual Blake Haxton Invitational Regatta. I have been in the rowing business for 46 years, coached for 38 years and was a coach at Upper Arlington High School for 23 years. In all that time, I have never coached an athlete that has as much ability or drive as Blake Haxton. He is one in a million and holds a very special place in my heart.

Because of that, I wanted to honor his rowing tenure at Upper Arlington High School with a race dedicated in his honor. I also wanted to make sure that this would be different from other regattas. It would focus on the true spirit of competition. Getting the fastest crews together to push each other is the essence of this sport. Blake knows that and so do I.

So, once again, we want to highlight the best crews in the Midwest. This event is focused on the very heart of competitive rowing – great competition. You and your teams are here because you are the best and we look forward to an amazing day of rowing!

Having recently retired from teaching and coaching at Upper Arlington, I have had a bit more time to work on the regatta and I hope you will enjoy this year’s version of our event. As I told Blake many years ago, whenever he was ready to compete again, I would be there to help him in any way I can. I was with him again last summer in France as he qualified the Men’s AS1x for the 2016 Paralympic Games in Rio. He has returned to competition with the same focus and determination he showed as a high school athlete. Please work with Blake and me in our efforts to help rowing make a difference in the lives of young people in the Midwest and throughout the world.

I am asking for your help as sponsors, participants, volunteers and spectators to make this one of the finest racing experiences you have attended. I am also asking for your indulgence in allowing this to be about the kids racing fast crews, and hopefully being among that special group. Please join me, the Upper Arlington coaching staff and our tremendous parent group in making the 6th annual Blake Haxton Invitational Regatta as special as its namesake.

BLAKE HAXTON - OUR HONOREE

“I am excited to see the proceeds of this year’s regatta go for the continued support of the Upper Arlington Crew program.”

Blake Haxton was a rower on the UA Crew team from the fall of 2004 through the spring of 2009 and was the boys’ captain from 2007 – 2009. In 2009, as he was getting ready to graduate, Haxton lost his legs, and nearly his life, to a rare, flesh-eating bacteria.

Today, after enduring 20 surgeries, rigorous physical therapy and committing to intense training, Haxton is once again a champion rower. In July of 2014 he finished first in the arms and shoulders single sculls at the 2014 Para-Rowing World Championships Trials, which qualified him for the 2014 World Rowing Championships where he took fourth. Blake spent part of August and early September of this year at the 2015 World Rowing Championships in Aiguebelette, France, representing the United States. He came in fifth in the world and has secured a seat for the 2016 Paralympic Games in Rio in 2016.

Blake is also pursuing his law degree at the Moritz College of Law at The Ohio State University and is continuing to work with UA Crew. We are lucky to have his knowledge and expertise on our team.

A SPECTATOR'S GUIDE

TO WHAT YOU'LL SEE AND HEAR AT THE 2015 HAXTON INVITATIONAL REGATTA

The crew that's making it look easy is most likely the one doing the best job. While you're watching, look for – continuous, fluid motion of the rowers. The rowing motion shouldn't have a discernible end or beginning.

Synchronization. Rowers strive for perfect synchronization in the boat.

Clean catches of the oarblade. If you see a lot of splash, the oarblades aren't entering the water correctly. The catch should happen at the end of the recovery, when the hands are as far ahead of the rower as possible. Rowers who uncoil before they drop the oarblades are sacrificing speed and not getting a complete drive.

Even oarblade feathering. When the blades are brought out of the water, they should all move horizontally close to the water and at the same height. It's not easy, especially if the water is rough. The most consistent speed. Shells don't move like a car – they're slowest at the catch, quickest at the release. The good crews time the catch at just the right moment to maintain the speed of the shell.

Rowing looks graceful, elegant and sometimes effortless when it's done well. Don't be fooled. Rowers haven't been called the world's most physically-fit athletes for nothing. A 2,000-meter rowing race demands virtually everything a human being can physically bring to an athletic competition – aerobic ability, technical talent, exceptional mental discipline, ability to utilize oxygen efficiently and in huge amounts, balance, pain tolerance, and the ability to

continue to work when the body is demanding that you stop.

Race times can vary considerably depending upon the course and weather conditions. Tailwinds will improve times, while headwinds and crosswinds will hamper them.

If a crew "catches a crab," it means the oarblade has entered the water at an angle instead of perpendicularly. The oarblade gets caught under the surface and will slow or even stop a shell.

A "Power 10" is a call by the coxswain for 10 of the crew's best, most powerful strokes. Good coxswains read the course to know how many strokes remain for their crew to count down to the finish.

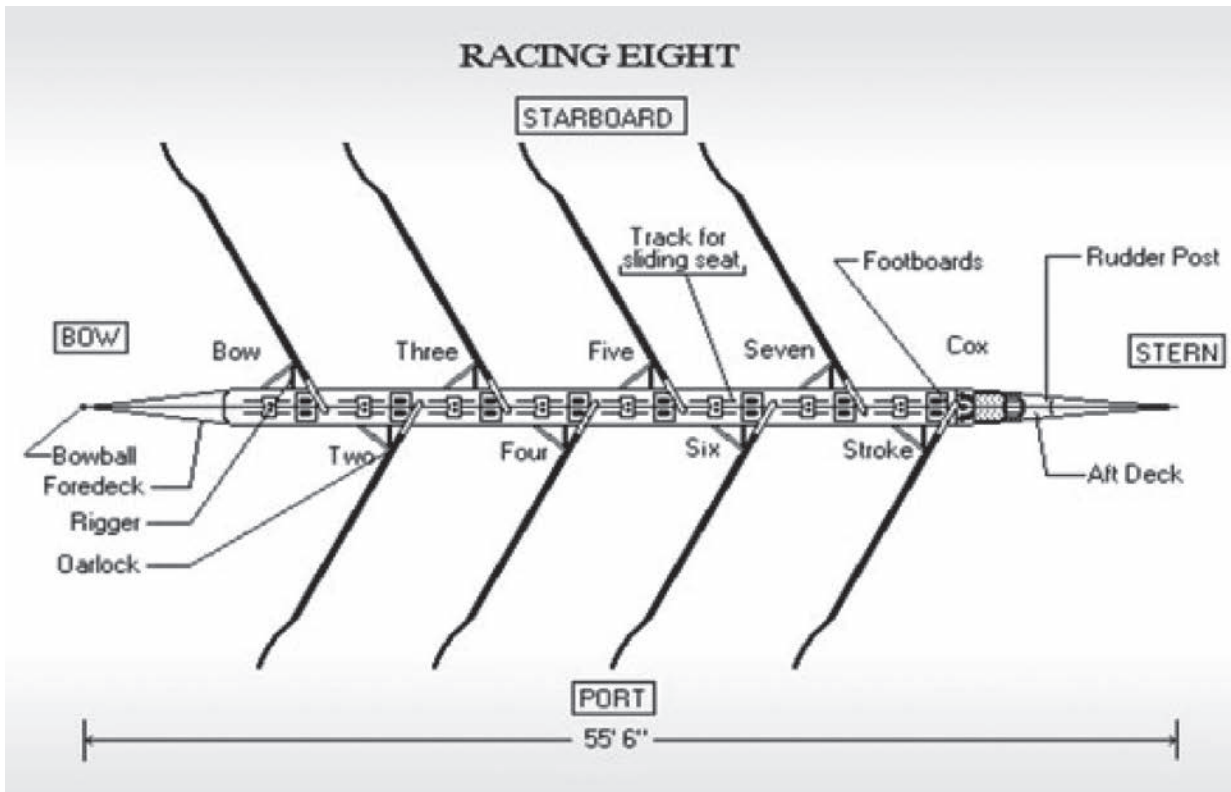

Crews are most easily identified by their oarblade design (see page 5).

It doesn't matter whether you win an Olympic medal or don't make the finals – each crew still carries their boat back to the rack.

Coxswains from first-place boats worldwide are thrown into the water by their crews.

A coxswain's job is to implement the coach's strategy during the race, in addition to steering and letting the rowers know where they stand in the race and what they need to do to win.

TYPES OF BOATS

Single - one rower with two oars (scull)

Double - two rowers, each with two oars (scull)

Quad - four rowers, each with two oars (scull)

Pair - two rowers, each with one oar (sweep)

Straight Four - four rowers, each with one oar (sweep)

Four With - four rowers, each with one oar and a coxswain (sweep)

Eight - eight rowers, each with one oar and a coxswain (sweep)

**In "scull" boats, rowers have 2 oars and in "sweep" boats or "shells" each rower has one oar*

BOAT DIRECTIONS

Stern - the back end of the boat

Bow - the front end of the boat where the bow ball is located

Port - the left side of the boat

Starboard - the right side of the boat (from the coxswain's view)

Note: The coxswain always faces the direction the shell is going while the rowers face the rear

HELP UA GO GREEN AT THE HAXTON

Trash at the 2015 Blake Haxton Invitational is being recycled, thanks to student volunteers and UA Crew families. Here's how you can keep your regatta refuse out of the landfill:

- > Please place cans, bottles, and narrow-mouthed plastics in the marked recycling bins.
- > Flatten large cardboard and large foil serving pans (rinsed; no grease, please!) and place them next to the recycling bin near your kitchen area.
- > Remind your rowers to use their refillable water bottles.

If your recycling or trash bin is FULL, please flag a recycling volunteer to empty or replace it.

THANK YOU to volunteers from Jones Middle School who will be overseeing the recycling today and to the Reed and Bertke families for coordinating. And, most of all, thank you to Republic Services, Third Hand Bike, SWACO, The Golf Car Company, and Kroger for helping us make a difference!

SWACO has more than doubled the life of the landfill as a result of its effective recycling program in Columbus. The success of recycling at the Haxton Regatta depends on you!

Upper Arlington High School has a rich history with success in many sports including the most state championships of any other high school in Ohio. In order to meet the high standards of UAHS, Upper Arlington Crew is always looking for students who are willing to work hard to achieve a lifetime of rewards. Many sports are old traditions in UA, but rowing is relatively recent and provides many new experiences and opportunities.

Crew (rowing) has been a competitive sport since 1827 in Europe. It became an important east coast collegiate sport around 1850 at schools such as Harvard and Yale, and the interest spread throughout the U.S. over the past 150 years. Rowing slowly made its way to the highschool level and 20 years ago a small group of Arlingtonians formed what is known today as Upper Arlington Crew. Throughout those 20 years, UA Crew has garnered tremendous success.

TOURNAMENT APPAREL

AFTER REVIEWING A SIMPLE CONTRACT, WE DECIDED TO GIVE FINE DESIGNS A SHOT.

THEY TOOK OVER EVERYTHING. I LIKED THE DESIGN THEY CAME UP WITH AND BASICALLY HAD LITTLE TO DO EXCEPT PROVIDE SPACE FOR THEM AT OUR EVENT. WE PUT THEM RIGHT IN THE MIX WITH ALL THE TEAMS. THEY SHOWED UP EARLY AND WERE READY WHEN THE TEAMS STARTED SHOWING UP. THE BOOTH WAS EYE CATCHING AND THE MERCHANDISED DISPLAY WAS VERY NICE. DURING THE MEET, I NOTICED A CONSISTENT STREAM OF CUSTOMERS. AS RACE DIRECTOR, I DID NOT RECEIVE A SINGLE COMPLAINT, AND A FEW COMMENTED ON HOW NICE THE MERCHANDISE WAS.

THE TEAM'S COMMISSION WAS LARGER THEN WHAT WE NETTED THE LAST THREE YEARS, WHEN WE DID ALL THE WORK. AT THE END OF THE EVENT, THE BOOTH AND AREA WAS LEFT AS WE STARTED.
